

Plants of South Eastern New South Wales

Flowering stem. Photographer Don Wood, Wadbilliga National Park

Flowering stem. Photographer Don Wood, Bungonia State Conservation Area east of Goulburn

Spent flower and seed cases. Australian Plant Image Index, photographer Paul Hadobas, between Bungendore and Braidwood

Common name

Pale vanilla-lily, Vanilla lily

Family

Asparagaceae

Where found

Variety of **habitats** including **forest**, **woodland**, grassy areas, rocky situations and moist gullies. Widespread.

Notes

Perennial herb to 1.2 m tall. Leaves basal, 3–60 cm long, 1–17 mm wide, more or less **erect**, usually **glaucous**. Flowers distinctly vanilla scented. Flowers with 6 '**petals**' each 5–10 mm long, white or pale blue to pink. **Filaments** of the **stamens** densely hairy, with white hairs, often purple near the **anthers**. Anthers purple. Flowers usually 2–9 per **node**. Flowering: chiefly November–February.

All native plants on unleased land in the ACT are protected.

Family Anthericaceae in NSW.
