

# Plants of South Eastern New South Wales

Flower heads. Photographer Richard Hartland, Grampians, Vic

Flower bud. Photographer Russell Best, Macedon Ranges National Park, Vic

Plant with flower buds. Photographer Chris Lindorff, Brisbane Ranges National Park, Vic

## Common name

Fringed Everlasting, White Everlasting

## Family

Asteraceae

## Where found

Open sites in **forest. Heath**. Coast, ranges, and the eastern edge of the tablelands, south from Merimbula.

## Notes

**Perennial** herb to 0.50 m high. Stems white-**woolly**. Leaves **alternating** up the stems, mostly 0.5–10 cm long, 0.5–2.5 mm wide, both surfaces grey-green and **felty**, tips pointed or with a small abrupt point, margins rolled down. Flower **heads** with narrow white (sometimes tinged brown or purple) petal-like **bracts** and yellow centres. Flower heads 10-30 mm in diameter overall, broadly bell-shaped. Flower heads single. Flowering: most of year but mainly spring.
