

Plants of South Eastern New South Wales

Plants. Photographer Richard Hartland, Mt Hotham, Vic

Flowering plants. Australian Plant Image Index, photographer Murray Fagg, Kosciuszko National Park

Common name

Bog billy-buttons

Family

Asteraceae

Where found

Heath, **herbfields**, damp sites, and bogs. Kosciuszko National Park, the mountains to the north, and ACT.

Notes

Robust herb to about 0.5 m high. The single flower stalk **woolly**, at least just below the flower **head**. Leaves basal and **alternating** up the stem, 4–25 cm long, 10–40 mm wide, limp, dark green, often shining, with scattered hairs; margins often densely hairy, tips blunt, bases broadly stem-clasping. Flower head golden-yellow, 15–35 mm in diameter, with up to 90 partial **heads**; **partial heads** with 7–11 **florets** with 0 **petals**. Flower head globular, single. Flowering: summer.

Protected NSW.

All native plants on unleased land in the ACT are protected.

Vulnerable Vic.
