

# Plants of South Eastern New South Wales

Line drawings. b. leaf outline; leaf lower surface detail; flower. A. Barley, National Herbarium of Victoria, © 2021 Royal Botanic Gardens Board

## Common name

Silky pomaderris, Bent pomaderris

## Family

Rhamnaceae

## Where found

Open **forest**, **shrubland**, rocky areas, and along streams. Morton National Park and Wollemi National Park.

## Notes

**Shrub** to about 2 m high. Branchlets shining golden-brown with short **appressed simple** hairs. Leaves **alternating** up the stems, 0.6–3 cm long, 2–10 mm wide, upper surface hairless; lower surface with appressed shining golden-brown simple hairs, entirely obscuring the underlying **stellate** hairs (needs a hand lens or a macro app on your phone/tablet to see), **lateral veins** obscure, tips blunt, margins curved down. Flowers cream to yellow, with 5 **sepals** each 1.7–2.1 mm long, falling early, and 0 **petals**, in branched clusters 10–30 mm long and wide. Flowers Oct.

Vulnerable Australia. Endangered NSW. Provisions of the NSW Biodiversity Conservation Act 2016 No 63 relating to the protection of protected plants generally also apply to plants that are a threatened species.

Vulnerable Vic. Listed in the Flora and Fauna Guarantee Act, Vic.
