## Common name

Ferry buttercup, Ferry small-flowered buttercup

## Family

Ranunculaceae

## Where found

**Woodland**, **grassland**, disturbed sites, and gullies and other moist sites. Western Slopes, Kosciuszko National Park, the mountains to the north, ACT, and the tablelands. Rarely in the ranges.

## Notes

**Annual** herb to 0.6 m tall. Stems hairy to almost hairless. Leaves **alternating** up the stems, 0.5-4 cm long, to 40 mm wide, **compound** or deeply **dissected**, with 3-5 leaflets or lobes, the leaflets or lobes further dissected. Flowers green, with 2-5 yellow **petals** each 1-2 mm long, in loose clusters. **Sepals** curved down. Flowers Winter to Summer. Seeds usually 10-20, lens shaped, 1.5-2 mm long overall, with a very short blunt or minutely hooked triangular **beak** about 0.2 mm long.

All native plants on unleased land in the ACT are protected.
